## RELIEF SHIPS ARE MISSING

**Feared They Have Been Sunk by a Tidal Wave.**  
**ARE LOADED WITH REFUGEES**

Unreported Vessels Supposed to Have Been Lost in the Strait of Messina. Italian Government Now Chiefly Concerned in Problem of Affording Relief to Destitute Survivors of the Earthquake.

Naples, Jan. 2.—It is reported here that another tidal wave has swept through the Strait of Messina. The report cannot be verified.

Two steamers loaded with refugees and injured persons that were expected in here today have not yet been sighted, and fears are entertained for their safety.

The vessels may, however, have sought shelter at some one of the islands along the coast, but the efforts to locate them have failed and in some quarters it is feared that they have been wrecked.

### WORK OF AFFORDING RELIEF

Task That Now Concerns the Italian Government.

Rome, Jan. 2.—Although graphic stories are coming into Rome of the horrors in Southern Italy and Sicily, these are but repetitions of individual tragedies already recorded. What chiefly concerns the government and the people is the progress that is being made toward the relief of those who have suffered by the dreadful visitation. Considerable advance in this respect has been made at Messina, where, according to official reports received here, the supply service is beginning to work satisfactorily. The different regions on the coast

ships and other ships as centers from which torpedo boats and launches convey and distribute rations and water to the different villages.

The minister of justice has wired from Messina to Premier Giolitti that large bodies of troops have arrived and are now occupying all parts of the town. The appalling extent of the disaster renders anything like a systematic search of the ruins impossible, but persons are being dragged out all day long and are quickly transported to the relief ships as soon as their wounds have received attention.

### Shocks Contribute to Alarm.

There were slight shocks felt in the earthquake zone Friday, completing the ruin of the crumbling buildings. These shocks are contributing to the keeping up of the alarm of the population. One quite severe shock was felt at 3 o'clock in the morning and another at 9 o'clock. Fires are still burning, although much rain has fallen. The latest investigations on both sides of the strait make it certain that many more than half the population of the coast towns and villages have been killed.

Professor Rico, director of the observatory at Mount Aetna, estimates that the victims of the earthquake exceed 200,000.

Hundreds of dangerous criminals have been arrested by the troops and are under close guard.

Great relief was felt here when the announcement was made that the Lipari islands, which were reported to have disappeared with their population of 28,000, suffered little or no damage from the earthquake. Public opinion is seriously concerned with regard to the safety of the king and queen and the possible danger from tottering walls. The king frequently has tried to persuade the queen to return to Rome, but she always refused, declaring that it would break her heart to abandon her husband in his labors for the country in its anguish.

### No Rejoicing in Italy.

New Year's day in Italy is usually the occasion of festivities and rejoicing as widespread as on Christmas. Imposing ceremonies are celebrated in the churches, where the people crowd to give thanks for past mercies and to implore still further mercies for the new year. The king spends his day receiving greetings from the foreign diplomats, his ministers and officials of state; the pope admits privileged hundreds to his mass and during the remainder of the day receives good wishes.

But these ceremonies and the festive spirit were wanting this year. Instead of rejoicing, Rome is filled with lamentations; pictured on the countenance of all is grief for the destruction of two beautiful regions of the mother country where thousands now lie dead. The flags wave at half mast and the bells of a thousand churches ring not for the Te Deum, but toll sad knells for requiem masses.

King Victor Emmanuel has been indefatigable. He has shown wonderful activity and endurance, leaving no point in Messina unvisited. He has supervised the entire work in the fallen city and the presence of his majesty has infused new courage and energy into the rescuers and the survivors, hungry and wounded as they are. Often he is surrounded by a crowd of victims who, as though the sight of the king had restored their

strength, cheer enthusiastically and shout: "We have a king; we have a protector."

A large number of soldiers have been landed from the various steamers arriving at Messina and other stricken places, and all efforts are being directed toward embarking the wounded refugees who are crowding all available places. Some of these will be sent as far as Genoa.

A touching feature of the material aid offered by all classes of the people in Rome is the donation of clothing and bedding, which the workmen are freely giving to collecting students. Reports from all parts of Italy indicate the same generous spirit. The king has placed the royal palaces at Naples and Caserta at the disposal of the injured.

### Advices Concentration of Refugees.

Vessels loaded with refugees continue to stream into Naples and Palermo, and each day sees the arrival of additional steamers in the Strait of Messina. The big emigrant steamer Nord America has arrived here. She can accommodate 1,500 persons, and four other vessels which are following her will be able to take off altogether 6,000 more. Signor Chimiri, a leading Calabrian deputy. In an interview, advises the concentration of all the injured at Naples and Rome, on the ground of the impossibility of accommodating them as in 1905, near their own homes. It is the government's intention to

remove all the survivors possible to the various ports in Italy.

As an instance of his quick grasp of the situation, King Victor Emmanuel soon after his arrival at Messina wired to Premier Giolitti: "Send ships and men; above all, send ships loaded with quicklime."

So far as has been possible, quicklime has been used on the dead; many bodies have been burned and others buried. In the relief work the officers and men of the foreign warships have been untiring and their courage is beyond words. The crew of the British cruiser Drake gave up everything they possessed for the benefit of the refugees, and practically forgot rest and sleep for more than thirty-six hours in their devotion to duty.

### IN A MESSAGE TO CONGRESS

President Will Recommend Relief for Earthquake Sufferers.

Washington, Jan. 2.—Instead of taking a day's vacation today, as had been planned originally, President Roosevelt will remain at his office to consider how best the nation may show in a substantial way its sympathy with the Italian people in their great hour of need and distress. As an outcome of the day the president hopes to be able to formulate a message to congress to be laid before that body when it convenes Monday recommending specific action on the part of this nation.

The president has asked Senator Hale, acting chairman of the committee on appropriations and chairman of the committee on naval affairs, to discuss the matter with him today. For a similar purpose the president will invite members of his cabinet, Secretary of State Root, Secretary of the Navy Newberry and Assistant Secretary of State Bacon. The views of several leaders of the house probably will be ascertained during the day by the president.

The question of diversion of the supplies designed for the fleet on its arrival in the Mediterranean sea, of a direct appropriation to be sought at the hands of congress for the relief of the people of Southern Italy and other proposed measures of relief will be considered in all their phases at the conference at the White House today.

Several persons believed to have been in the earthquake zone in Italy regarding whom information was reported safe in the United States, arrived at the state department.

### FACTIONS AGREE TO TRUCE

Peace Again Prevails in Breathitt County, Ky.

Jackson, Ky., Jan. 2.—Fearing that the governor would send troops to Breathitt county to preserve order, the Callahan and Deaton factions agreed to a truce and disbanded. Both bands have left Jackson.

The compromise was the result of the dismissal of the warrants against former Sheriff Callahan and seven of his adherents, who are charged with the shooting of Rash Sebastian, an associate of Gowan Smith and two of the Deaton faction for confederating and for shooting up the Callahan home shortly after the presidential election.

Judge Taubee's action in dismissing the warrants, it is said, was taken on the recommendation of some of the most prominent citizens and leaders in the law and order movement in Breathitt county. When the cases were called up Judge Taubee was about to direct the summoning of an armed posse to take the place of the troops which the governor had been asked to send, when the proposition to dismiss the warrants in the interest of peace was made and to which the court agreed.

### Police Disperse Seattle Mob.

Seattle, Wash., Jan. 2.—Every reserve policeman at headquarters was needed to beat back a mob of rioters that stormed the city jail following the arrest of Thomas Peterson for disorderly conduct. The mob, consisting of more than 1,000, surrounded the jail and called for the release of the prisoner. The police finally charged and scattered the crowd.

## AVERTS PANIC IN A THEATER

Fireman Prevents Repetition of the Iroquois Horror.

## FIRE OCCURS IN PLAYHOUSE

Audience Is Informed That Flames Are in an Adjoining Structure and Most of Them Get Out Before Crush Begins—Several Women and Children Are Overcome by Fright and Faint, But Nobody Is Seriously Hurt.

Erie, Pa., Jan. 2.—"Keep the show going, for God's sake!" called Abraham Louch, fireman of the Park Opera House, to the performers on the stage when he discovered that the building was on fire. His cool head probably averted a repetition of the Chicago Iroquois theater horror, for before the big audience realized the situation the house had been almost emptied. Although there were many narrow escapes and a dozen women fainted and had to be carried out, no one was seriously injured and much of the building was saved from destruction. Every one of the 1,800 seats in the theater was occupied. The John Sullivan Amusement company was presenting "In the Nick of Time." Louch saw smoke issuing from the floor of the gallery and sent in a still alarm. He reached the rear of the stage before the audience was advised of the danger and, speaking just loud enough for the actors to hear, appealed to them to continue the act. Then he stepped to the front and called to the audience to file out in order, giving them to understand that the fire was in an adjoining structure. No one tried to crowd until smoke began to fill the building. Then a crush began. The fire department saved scores from jumping from the third story fire escapes by getting ladders up. In the front seats of the balcony were many women and children and several overcome by fright, fainted and were carried out.

Fire Chief McMahon expressed amazement that the house was emptied without fatality, in view of the fact that standing room tickets had been sold. The fire is believed to have originated from defective electric wiring.

**Judge Declared that Bond of  
\$600 was Insufficient to Cover  
Preliminary Expenses**

After hearing the report of George A. Ralph, state drainage engineer, and listening to the evidence of a large number of residents and property owners of the section affected, Judge McClenahan stated that he was satisfied that the proposed ditch, from Waldeck to Pine Knoll, was a necessity and expressed his willingness to appoint C. A. Ralph, state drainage engineer, as engineer of the ditch, the state drainage commission having offered his services free of charge. Judge McClenahan stated, however, that he thought the bond of \$600, which had been filed, insufficient to cover the incidental expenses of the preliminary work, which must be done whether the ditch was ordered or not. He believed that the bond should be increased to at least \$2,000. If this bond was filed within ten days he would then sign the order appointing Mr. Ralph as engineer. It was suggested that he should also appoint reviewers, but he said that the consent of the federal war department must be secured to the construction of the ditch and that its approval must be had of the surveys and estimates. He deemed it, therefore, unfair to the signers of the bond to incur the expense of the reviewers until the department had passed upon the engineer's report upon the ditch. Mr. Ralph stated that he could have his report ready in about 40 days from the date of his formal appointment.

**One Dead and Four Sick in one Family in this City From the Dread Disease Typhoid Fever**  
The death of Alice Pilon, the six year old daughter of Mrs. Leah Pilon, 24 Laurel street, brought to light a very sad condition of things. The little one died this morning of typhoid fever, and it is the second death in that family in the past month, an 18-months old child having died of cholera infantum. The mother and three other children are also sick with typhoid fever, two being in St. Joseph's hospital and two at their home. The residence is the little house, if it can be called such, at this end of the Laurel street bridge across the Mississippi river, and it is thought that the contamination came from the mouth of the Laurel street sewer, which empties into the river at that point.

**MAN IS PROBABLY INSANE**  
**Altogether Probable That Sam Williams is the Man Who Attempted Suicide Last Week**

The St. Paul papers reported the attempted suicide of a man who gave his name as Sam Williamson, and his address as Ft. Ripley, on Dec. 30, and later developments would indicate that the man is none other than Sam Williams, who owned a farm near St. Mathias and who left the same a couple of weeks ago for a trip, as he stated. The attempt at suicide was by eating rat biscuit, taking a quantity of carbolic acid and then lying down in front of an incoming train but was discovered by a brakeman in time to rescue him and he was taken to the city hospital where he regained consciousness and gave his name and address. Williams is a man about 60 years of age and has lived alone on his farm in St. Mathias township for many years, and has no relatives in this country so far as is known. He has always been considered as an eccentric man and divulged little if any of his history to his neighbors. Mr. Williams, who was a Norwegian, seems to have conceived a dislike and hatred of the Swedes, and in the letter which he wrote to Dan Guild, which is produced below with the exception of that part of it which scores his Swedish neighbors in language unprintable, he gives his farm and all his belongings in this county to Mr. Guild. The letter is as follows:

Digests What you Eat Just as a Strong Healthy Stomach Would do it

You haven't catarrh of the Stomach, or nervousness, or Gastritis, or cancer, etc. Prove this by taking Pape's Diapepsin after your very next meal. Convince yourself within five minutes that your actual disease was sour, acid Stomach—Food fermentation—that every bite you ate turned to stomach gas, stomach poison and acid, which makes you feel sick and miserable, producing such symptoms as pain in the pit of the stomach, difficulty in breathing after a meal, headaches, belching, heartburn, nauseous breath, water brash, biliousness, sour risings, gas on stomach and many other bad feelings.  
Indigestion is a result, not a cause, of your misery. If the stomach is sour, your food becomes tainted, and that's why you have these stomach disorders.  
Ask your pharmacist to show you a case of Pape's Diapepsin, which costs only 50 cents. Read what this effective stomach and digestive treatment contains, and how absolutely harmless it must be; how it does for the stomach what the washing and sun bath do for the churn; absolutely removes every corrupting or tainting element, and will digest all the food you can eat.  
Go to your druggist and get some Diapepsin now, then eat anything you want at your next meal, and you will not suffer from indigestion or stomach trouble. Each bite of food will taste good, and, besides, you will not need liver regulators to keep your intestines and stomach clean and fresh.  
Now and forever rid yourself of the misery of indigestion and stomach trouble. Make your meals a pleasure by going to the table with a healthy appetite.

**If You have a Piano  
or Any kind of Furniture**

That you wish to keep in good condition, write us for a bottle of our famous piano polish. From the experience of a lifetime in the piano business, we have finally evolved a polish that stands unrivaled in a class by itself.

It restores old surfaces and preserves the new. It cleans and disinfects, brings out the natural beauty of the wood and at the same time imparts a deep rich lustre, with the least effort.

This polish does not smear, streak or collect dust. The daily use of a little polish on the dust cloth is strongly recommended. This polish is used by us on our musical instruments and has been used by us for years. We consider it unexcelled.

It would seem that almost anyone around the capitol has been in the habit of signing Governor Johnson's name to documents.

In Germany fathers of large families are to have their taxes reduced in proportion to the number of their children. The Roosevelt idea is spreading to foreign countries.

THE primary election law has received more condemnation at the hands of the people than any law put on the statute books in recent years. A revision of its provisions is absolutely necessary if not its repeal.

EVEN the gentlemen who hold commissions as notary public come under the ban of the anti-pass law, and even if a notary public is a railroad employee he cannot ride on a pass. All passengers look alike to the conductor now.

BEMIDJI and several other up-country cities are after the location of the sixth normal school and an interesting fight will be put up during the coming session of the legislature. It is quite possible that an additional normal school will not be authorized.

THE jag farm goes to Kandiyohi county and will be located about two miles from Wilmar. The expenses of the location and the building is to be borne by a two per cent tax upon all the liquor licenses issued by municipalities and counties and already \$40,000 has accumulated in this fund. This farm for inebriates is the first state institution to go to that district.

IF THE claims of a Wisconsin farmer is true the removal of stumps from cut over lands will be an easy and inexpensive proposition in the future. A mixture of equal parts of nitric and sulphuric acid poured into augur holes in the stumps will reduce them to a pulpy mass within thirty days, if the claim holds good, and the expense will be four cents per stump.

### Do You Open Your Mouth

Like a young bird and gulp down whatever food or medicine may be offered you? Or, do you want to know something of the composition and character of that which you take into your stomach whether as food or medicine?

Most intelligent and sensible people now-a-days insist on knowing what they employ whether as food or as medicine. Dr. Pierce believes they have a perfect right to insist upon such knowledge. So he publishes, broadcast and on each bottle wrapper, what his medicines are made of and what they are good for. This he feels he can well afford to do because the more the ingredients of which his medicines are made are studied and understood the more will their superior curative virtues be appreciated.

For the cure of woman's peculiar weaknesses, irregularities and derangements, giving rise to frequent headaches, backache, dragging-down pain or distress in lower abdominal or pelvic region, accompanied, oftentimes, with a debilitating, pelvic, catarrhal drain and kindred symptoms of weakness, Dr. Pierce's Favorite Prescription is a most efficient remedy. It is equally effective in curing painful periods, in giving strength to nursing mothers and in preparing the system of the expectant mother for baby's coming, thus rendering childbirth safe and comparatively painless. The "Favorite Prescription" is a most potent, strengthening tonic to the general system and to the organs distinctly feminine in particular. It is also a soothing and invigorating nerve and cures nervous exhaustion, nervous prostration, neuralgia, hysteria, spasms, chorea or St. Vitus's dance, and other distressing nervous symptoms attendant upon functional and organic diseases of the distinctly feminine organs. A host of medical authorities of all the several schools of practice, recommend each of the several ingredients of which "Favorite Prescription" is made for the cure of the diseases for which it is claimed to be a cure. You may read what they say for yourself by sending a postal card request for a free booklet of extracts from the leading authorities to Dr. R. V. Pierce, Little Rock, Ark. and it will come to you.

## Dr. Pierce's Common Sense Health Talks

No man is stronger than his stomach. Make your stomach strong and you thereby fortify your system against the attacks of a long list of diseases which originate in the stomach and must be reached, if at all through the stomach. Thus torpid, or lazy liver, biliousness, dyspepsia, impure blood and various skin affections originate in weak stomach and consequent poor nutrition. The same is true of certain bronchial, throat and lung affections.

### Dr. Pierce's Golden Medical Discovery

Strengthens the stomach, invigorates the liver, purifies the blood making it rich, red and vitalizing and thereby curing the above and kindred affections.

It's foolish and often dangerous to experiment with new or but slightly tested medicines—sometimes urged upon the afflicted as "just as good" or better than "Golden Medical Discovery." The dishonest dealer sometimes insist that he knows what the proffered substitute is made of, but you don't and it is decidedly for your interest that you should know what you are taking into your stomach and system expecting it to act as a curative. To him its only difference of profit. Therefore, insist on having Dr. Pierce's Golden Medical Discovery. If not promptly supplied trade elsewhere.

Behind Dr. Pierce's Medicines stands the Invalids' Hotel and Surgical Institute, at Buffalo, thoroughly equipped and with a Staff of Skilled Specialists to treat the more difficult cases of Chronic diseases whether requiring Medical or Surgical skill for their cure. ## WOULD APPOINT RALPH, ENGINEER

Judge McClenahan Will Appoint  
Geo. A. Ralph Engineer on  
Big Cut-Off Ditch

## BOND MUST BE INCREASED

Judge Declared that Bond of  
\$600 was Insufficient to Cover  
Preliminary Expenses

After hearing the report of George A. Ralph, state drainage engineer, and listening to the evidence of a large number of residents and property owners of the section affected, Judge McClenahan stated that he was satisfied that the proposed ditch, from Waldeck to Pine Knoll, was a necessity and expressed his willingness to appoint C. A. Ralph, state drainage engineer, as engineer of the ditch, the state drainage commission having offered his services free of charge. Judge McClenahan stated, however, that he thought the bond of \$600, which had been filed, insufficient to cover the incidental expenses of the preliminary work, which must be done whether the ditch was ordered or not. He believed that the bond should be increased to at least \$2,000. If this bond was filed within ten days he would then sign the order appointing Mr. Ralph as engineer. It was suggested that he should also appoint reviewers, but he said that the consent of the federal war department must be secured to the construction of the ditch and that its approval must be had of the surveys and estimates. He deemed it, therefore, unfair to the signers of the bond to incur the expense of the reviewers until the department had passed upon the engineer's report upon the ditch. Mr. Ralph stated that he could have his report ready in about 40 days from the date of his formal appointment.

## GIVES FARM AWAY AND TRIES SUICIDE

St. Mathias Farmer Makes an Attempt on His Life After Writing Peculiar Letter

## MAN IS PROBABLY INSANE

Altogether Probable That Sam Williams is the Man Who Attempted Suicide Last Week

The St. Paul papers reported the attempted suicide of a man who gave his name as Sam Williamson, and his address as Ft. Ripley, on Dec. 30, and later developments would indicate that the man is none other than Sam Williams, who owned a farm near St. Mathias and who left the same a couple of weeks ago for a trip, as he stated. The attempt at suicide was by eating rat biscuit, taking a quantity of carbolic acid and then lying down in front of an incoming train but was discovered by a brakeman in time to rescue him and he was taken to the city hospital where he regained consciousness and gave his name and address. Williams is a man about 60 years of age and has lived alone on his farm in St. Mathias township for many years, and has no relatives in this country so far as is known. He has always been considered as an eccentric man and divulged little if any of his history to his neighbors. Mr. Williams, who was a Norwegian, seems to have conceived a dislike and hatred of the Swedes, and in the letter which he wrote to Dan Guild, which is produced below with the exception of that part of it which scores his Swedish neighbors in language unprintable, he gives his farm and all his belongings in this county to Mr. Guild. The letter is as follows:

ONLY A CHRISTMAS GIFT  
DAN GUILD.

You can have what belongs to me in Crow Wing county, provided you take good care of the horses as long as they live and publish this in the Brainerd Weekly Dispatch. I do not owe anybody one cent. You will find the keys in the barn above the door, and you will find something on the table under the cloth. Well, good friend Guild, space forbids me to tell you anything more about them. Be good to the horses, Dan, I payed you good for doing it. Don't sell them and don't hire them to anybody. Don't give this paper to the printer (keep it) write out a copy for him. When this is published the register of deeds will transform my deed from me, Sam Williams, to you, Dan Guild. If this is printed before 1909 send a copy to Sam Williams, St. Martinsville, La. Yours respectfully  
SAM WILLIAMS.

### Y. M. C. A. Reception

The New Year's entertainment at the Y. M. C. A. last evening was a great success. The rooms were crowded and the program was fine, every number being heartily applauded. The features characteristic of the association were the gymnastic work by the senior and junior squads, which was especially well done and the work of the orchestra and the quartet belonging to the association. Both were fine and show careful training. Space will not permit an extended report of the entertainment.

### A SAD CASE

One Dead and Four Sick in one Family in this City From the Dread Disease Typhoid Fever

The death of Alice Pilon, the six year old daughter of Mrs. Leah Pilon, 24 Laurel street, brought to light a very sad condition of things. The little one died this morning of typhoid fever, and it is the second death in that family in the past month, an 18-months old child having died of cholera infantum. The mother and three other children are also sick with typhoid fever, two being in St. Joseph's hospital and two at their home. The residence is the little house, if it can be called such, at this end of the Laurel street bridge across the Mississippi river, and it is thought that the contamination came from the mouth of the Laurel street sewer, which empties into the river at that point.

## UPSET STOMACH OR DYSPEPSIA

Harmless Anti-Ferment and Digestive Gives Almost Instant Relief

ALL DYSPEPSIA WILL VANISH  
Digests What you Eat Just as a Strong Healthy Stomach Would do it

You haven't catarrh of the Stomach, or nervousness, or Gastritis, or cancer, etc. Prove this by taking Pape's Diapepsin after your very next meal. Convince yourself within five minutes that your actual disease was sour, acid Stomach—Food fermentation—that every bite you ate turned to stomach gas, stomach poison and acid, which makes you feel sick and miserable, producing such symptoms as pain in the pit of the stomach, difficulty in breathing after a meal, headaches, belching, heartburn, nauseous breath, water brash, biliousness, sour risings, gas on stomach and many other bad feelings.

Indigestion is a result, not a cause, of your misery. If the stomach is sour, your food becomes tainted, and that's why you have these stomach disorders.

Ask your pharmacist to show you a case of Pape's Diapepsin, which costs only 50 cents. Read what this effective stomach and digestive treatment contains, and how absolutely harmless it must be; how it does for the stomach what the washing and sun bath do for the churn; absolutely removes every corrupting or tainting element, and will digest all the food you can eat.

Go to your druggist and get some Diapepsin now, then eat anything you want at your next meal, and you will not suffer from indigestion or stomach trouble. Each bite of food will taste good, and, besides, you will not need liver regulators to keep your intestines and stomach clean and fresh.

Now and forever rid yourself of the misery of indigestion and stomach trouble. Make your meals a pleasure by going to the table with a healthy appetite.

## If You have a Piano or Any kind of Furniture

That you wish to keep in good condition, write us for a bottle of our famous piano polish. From the experience of a lifetime in the piano business, we have finally evolved a polish that stands unrivaled in a class by itself.

It restores old surfaces and preserves the new. It cleans and disinfects, brings out the natural beauty of the wood and at the same time imparts a deep rich lustre, with the least effort.

This polish does not smear, streak or collect dust. The daily use of a little polish on the dust cloth is strongly recommended. This polish is used by us on our musical instruments and has been used by us for years. We consider it unexcelled.

## Do You Open Your Mouth

Like a young bird and gulp down whatever food or medicine may be offered you? Or, do you want to know something of the composition and character of that which you take into your stomach whether as food or medicine?

Most intelligent and sensible people now-a-days insist on knowing what they employ whether as food or as medicine. Dr. Pierce believes they have a perfect right to insist upon such knowledge. So he publishes, broadcast and on each bottle wrapper, what his medicines are made of and verifies (under seal) that he feels he can well afford to do because the medicines are made of ingredients which his medicines are made of and understood the more will their superior curative virtues be appreciated.

For the cure of woman's peculiar weaknesses, irregularities and derangements, giving rise to frequent headaches, backache, dragging-down pain or distress in lower abdominal or pelvic region, accompanied, oftentimes, with a debilitating, pelvic, catarrhal drain and kindred symptoms of weakness, Dr. Pierce's Favorite Prescription is a most efficient remedy. It is equally effective in curing painful periods, in giving strength to nursing mothers and in preparing the system of the expectant mother for baby's coming, thus rendering childbirth safe and comparatively painless. The "Favorite Prescription" is a most potent, strengthening tonic to the general system and to the organs distinctly feminine in particular. It is also a soothing and invigorating nerve and cures nervous exhaustion, nervous prostration, neuralgia, hysteria, spasms, chorea or St. Vitus's dance, and other distressing nervous symptoms attendant upon functional and organic diseases of the distinctly feminine organs. A host of medical authorities of all the several schools of practice, recommend each of the several ingredients of which "Favorite Prescription" is made for the cure of the diseases for which it is claimed to be a cure. You may read what they say for yourself by sending a postal card request for a free booklet of extracts from the leading authorities to Dr. R. V. Pierce, Medical Director, and Surgeon in Chief, of the New York and it will come to you.

## Dr. Pierce's Common Sense Health Talks

No man is stronger than his stomach. Make your stomach strong and you thereby fortify your system against the attacks of a long list of diseases which originate in the stomach and must be reached, if at all through the stomach. Thus torpid, or lazy liver, biliousness, dyspepsia, impure blood and various skin affections originate in weak stomach and consequent poor nutrition. The same is true of certain bronchial, throat and lung affections.

## Dr. Pierce's Golden Medical Discovery

**Strengthens the stomach, invigorates the liver, purifies the blood making it rich, red and vitalizing and thereby curing the above and kindred affections.**

It's foolish and often dangerous to experiment with new or but slightly tested medicines—sometimes urged upon the afflicted as "just as good" or better than "Golden Medical Discovery." The dishonest dealer sometimes insist that he knows what the proffered substitute is made of, but you don't and it is decidedly for your interest that you should know what you are taking into your stomach and system expecting it to act as a curative. To him its only difference of profit. Therefore, insist on having Dr. Pierce's Golden Medical Discovery. If not promptly supplied trade elsewhere.
